

LIBRARY MODULE for EBM PROJECT

The second week of the clerkship, identify a clinical question for the Evidence-Based Medicine (EBM) assignment and clear it with your preceptor. You may then start the Library Module, which takes 45-60 minutes to complete.

The Health Sciences Library worked with Dr. Levin to create an online library module for the Evidence-Based Medicine project. Credit for the assignment will be confirmed upon completing the module and submitting the required assignment.

Access the Library Module for the Evidence-Based Medicine Project with your UVID and password. The module is available at:

http://library.luhs.org.archer.luhs.org/hslibrary/training_and_education/FamMedClerkship2020/index.html#/ .

This module is optimized for mobile devices. Follow the instructions at the end of the module to complete and submit the library assignment via email to: hsl@luc.edu. Library faculty will review the assignment and return it with feedback within seven business days of the receipt.

Questions: Gail Hendler, Research and Education Librarian, ghendler@luc.edu or 708-216-5303

NOTE: *The library assignment is **Not** the EBM Project. The EBM Project should be turned in to Amy Andel at the end of the clerkship.*

- THE LIBRARY MODULE and ASSIGNMENT **MUST** BE COMPLETED BY THE **LAST** DAY OF THE FAMILY MEDICINE CLERKSHIP TO RECEIVE CREDIT.
