

Diagnostic Equipment

Diagnostic equipment and stethoscopes will be distributed by SSOM – Student Life during orientation week. The cost has been incorporated into your tuition package.

You will be using your equipment in your small groups, with your physician preceptors, mentors, in your standardized patient experiences, your volunteer experiences, in the summer immersion trips and for the rest of your life as a practicing physician. Therefore proper/acceptable equipment is required.

If you have purchased equipment on your own or have been gifted equipment, you will need to ensure your equipment meets our standards. Please contact one of us with your equipment information:

- Jim Winger, MD., Course Director: jwinger@lumc.edu
- Rebecca Maddrell, MD., Assistant Course Director: rebecca.maddrell@lumc.edu
- Diane Stancik, Course Coordinator: dstanci@luc.edu
